MEASAMER BROTHERS

Christmas Greetings

When the year closes it is natural for all of us to become more or less reminiscent and reflect on the days that are gone.

Over ten years ago the writer helped to take over the business of Smith Bros. and during that time we have sold about one million dollars worth of merchandise to the very best people of the Cumberland Plateau.

We are proud of this record and we wish to acknowledge and express to our thousands of friends and customers throughout our trade territory, our sincere and heartfelt appreciation of their generous patronage, which has made this success possible for us.

No business or individual can succeed without the loyal support of friends, and friendship is the reward of service and good-will. We consider the friendship and good-will of our customers our greatest and most important asset, and the consciousness of having won and enjoyed this good-will and friendship during the past ten years is the greatest source of pleasure in business today. It has been our policy from the start to handle only standard lines of merchandise—to guarantee correct prices—and practice the principles of the Golden Rule, and "sink or swim" this will be our policy in the future.

We have seen our business grow from twenty-eight thousand dollars per annum to over one-hundred thousand dollars, and the number of our customers have increased accordingly. It has been and will continue to be our constant effort to co-operate with our customers that they may be brought closer to the goal of all the good things they are trying to achieve.

We are thanking our thousands of customers for their generous patronage in the past and wishing for them all the joys and happiness of the glad Yuletide and health and prosperity during 1923 and all the years to come.

Friday morning Clint Flynn arrived from Apperson, Oklahoma, after passing a few months there working in the old fields. Mr. Flynn liked the country fine and had a splendid job, but the country did not seem to agree with him as he contracted malaria and was in the hospital for almost two months before returning here at the advice of doctors. They felt it best for him to return to this plateau section to get rid of the malaria that had taken hold of him because of the bad water and other unfavorable conditions.

H. E. Beadle was here from Crawford yesterday.

Mrs. S. C. Cline plans to leave this week for Illinois to visit her sister and other relatives during the holiday season.

Miss Hallie Dunbar, who is teaching in the Rockwood city schools for the second year, is home for the Holidays.
